

**MAACK®**

# Safety

**ANTHEM®**

# A REVOLUTION IN SAFETY.

An aerial photograph of a blue Mack Anthem semi-truck driving on a multi-lane highway. The truck is pulling a white trailer. Concentric blue circles emanate from the front of the truck, representing sensor waves for collision avoidance. A dark sedan is visible in the distance in the same lane. The road has white dashed lane markings and a solid yellow line on the right side.

From tight city streets to packed highways—  
safety is never optional. That's why the new Mack  
Anthem® is engineered to set the New Standard in  
protection. Because keeping drivers secure while  
navigating industrial parks, busy loading docks,  
and unpredictable challenges en route means  
safeguarding everyone who shares the road.

# UNWAVERING EXTERIOR PROTECTION.

Built to shield and designed to protect, Anthem leaves nothing to chance.

## Exterior Safety Features

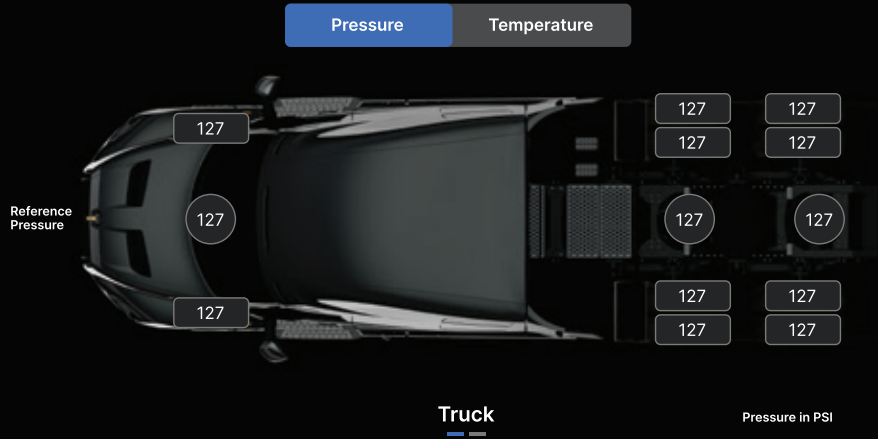

Galvanized steel cab exceeds roof strength requirements.

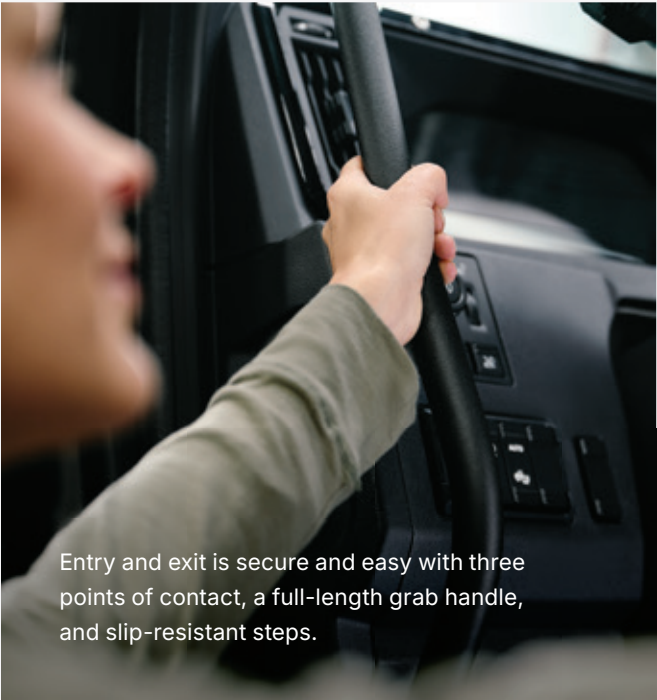

Mack Aero Windshield improves the line of sight and awareness.

☒ Tire Status Monitor

Optional Tire Monitor System streamlines tire monitoring to get the most out of tires.

Entry and exit is secure and easy with three points of contact, a full-length grab handle, and slip-resistant steps.

## Additional Safety Features

Flared frame rails for a lower engine mount allows the engine and transmission to drop below the cab in the event of a severe front-end collision.

---

Backup camera has digital camera expansion hub for additional camera inputs.

---

Electropneumatic braking system adapts to different driving conditions, providing smoother, more consistent braking.

# CAB SAFETY TO THE CORE.

Precisely engineered cab protection that works  
when and where drivers need it most.

## Interior Safety Features

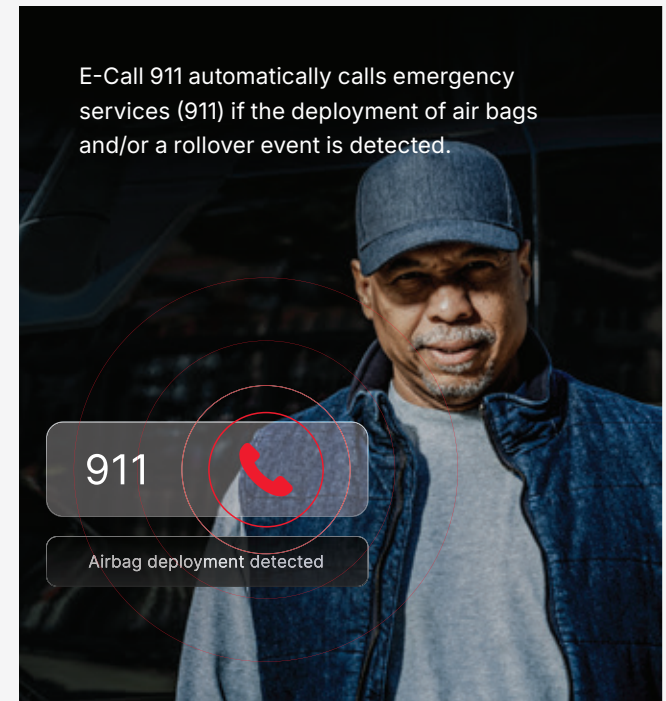

Available Digital Mirror System (DMS) replicates traditional mirrors but with enhanced visibility and safety.

Mack® Command Steer helps reduce driver effort up to 85% and improve driver productivity and road awareness through advanced active steering.

E-Call 911 automatically calls emergency services (911) if the deployment of air bags and/or a rollover event is detected.

Stalk-mounted mDRIVE™ controls allow for smoother eyes-on-the-road shifting.

## Additional Safety Features

Forward and Side Pedestrian Detection uses radars to detect and alert for pedestrians, motorcycles, and cyclists.

---

Frontal collision and rollover support automatically shuts down engine, unlocks doors, and turns on interior lights to help vehicle occupants safely exit the vehicle after an incident.

---

Standard frontal airbag and available side curtain airbags provide an added layer of protection in the event of a collision.

# PROACTIVE PROTECTION.

By combining advanced detection with immediate action,  
Anthem redefines what protection means.

# Mack Protect Premier

- ADAPTIVE CRUISE CONTROL
- AUTOMATIC EMERGENCY BRAKING
- FRONTAL COLLISION AND ROLLOVER PROTECTIVE ACTIONS
- FORWARD COLLISION WARNING
- FORWARD AND SIDE PEDESTRIAN DETECTION
- LANE CHANGE AND BLIND SPOT SUPPORT

- LANE DEPARTURE WARNING
- LANE KEEPING ASSIST
- OVERSTEER GUIDANCE
- ROAD SIGN ID
- SIDE CURTAIN AIRBAGS
- TRAFFIC STOP AND GO

## Mack Protect Safety Packages

Mack Protect assists drivers with collision warning and mitigation through a variety of features. Available in three tiered packages that build upon each other, these suites enable dealers and drivers to select the appropriate level of protection based on their specific needs.

Feature	Mack Protect	Mack Protect Pro	Mack Protect Pro Premier
Frontal Collision and Rollover Protective Actions	X	X	X
Forward Collision Warning	X	X	X
Adaptive Cruise Control	X	X	X
Automatic Emergency Braking	X	X	X
Lane Departure Warning	X	X	X
Traffic Stop and Go	X	X	X
Forward Pedestrian Detection	X	X	X
Road Sign ID	X	X	X
Side Curtain Airbags (both sides)		X	X
Lane Change and Blind Spot Support (both sides)		X	X
Side Pedestrian Detection (both sides)		X	X
Lane Keeping Assist			X
Oversteer Guidance			X
